Recommendations for Preventive Pediatric Health Care

Northwest Primary Care recommends that you bring your child in for regular visits to assist in keeping your child healthy. Well-child visits allow your child's Primary Care Provider (PCP) to monitor your child's growth and development, give any vaccines that are due, and provide a chance to find and treat any concerns early. Well-child appointments are also a good time for you to ask any questions that you have about your child's health and also give the PCP time to discuss age appropriate behavioral issues, including behaviors at the adolescent age.

Visit and Immunization chart

This chart lists important vaccines and tests as well as recommended well-child visits. In addition to theses vaccinations, we recommend all children aged 6 months and older get a flu vaccine every fall.

AGE	Recommended office visits	Pediatric routine visit schedule
Birth	Well-child visit	Newborn blood screen Immunizations may be due
3-5 days	Well-child visit	
7-14 days	Well-child visit	2nd PKU will be due (please bring in baby's paperwork)
